

Invitational Round Press Release

The North American Computational Linguistics Olympiad is happy to announce the results of the 2013 invitational round.

US Team Selection:

The top four contestants in the invitational round, Darryl Wu of Washington, Aaron Klein of Massachusetts, Max Schindler of Missouri, and Alex Wade of New Hampshire, are invited to the first American team for the ILO.

The next four contestants, Tom McCoy of Pennsylvania, Rebecca Burks of California, Jeffrey Ling of California, and Erik Andersen of California, will be invited to the second American team. Simone Stoyen of Virginia will also be on the US team.

The International Linguistics Olympiad:

All US and Canadian team members are invited to participate in the International Linguistics Olympiad in Manchester, England on July 22-26, 2013. NACLO is currently raising money for the trip and will contact team members and their parents about travel arrangements.

Best Solution Awards:

The jury recognizes Michelle Noh for the best solution to problem I, Evgenia Nitishinskaya for the best solution to problem K, Tom McCoy and Julian Gau for the best solutions to problem L, and Kenny Smith for the best solution to problem P.
